Ayer's Cherry Pectoral.

COUGHS, COLDS, HOARSENESS, CROUP, WHOOPING COUGH, ASTHMA, INFLUENZA, CONSUMPTION.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and extent of virtues which excites the astonishment of the most enlightened of its friends. Nothing but its intrinsic value, and its unrivalled power to cure, could originate and maintain the reputation it enjoys. Many inferior remedies flourish upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefactions the most valuable, and produced cures literally numberless. In the affections of the throat and lungs, it has performed wonders, and for manifestations of scrofulous disease in the blood, it is the most effectual remedy that has ever been known. Indeed, so numerous are the cases of dangerous and apparently desperate diseases of the throat and lungs, which are daily occurring, that every family should have it for protection. Colds, settling on the lungs, are the origin of more than half the diseases of this climate. One dose will relieve any recent cold, and a few doses will cure it. Its early use will prevent the development of the seeds of consumption, which lie in the system of many persons, ready to start into life the moment they are warmed by the first cold or settling of the lungs. Avoid all the usual modes of treatment, and the inevitable result, by checking the cough, and thus relieving the lungs, and you will save the patient. Nothing but the counteracting influence of this remedy can cope with the disease when it has fastened upon the vitals. Neglect of the simple means which will control it in its early stages, and the use of pernicious drugs, which only aggravate the symptoms, are the causes of the greater part of the mortality which carries off its victims. Keep the bowels open, the liver active, and the blood pure, by the occasional use of such gentle purgatives as will not irritate or debilitate the system, and the Cherry Pectoral will do the rest.

Prepared by J. C. AYER, M. D.,
Practical and Analytical Chemist, Lowell, Mass.

For sale by RANKIN, HOWARD & CO., and sold by the Druggists generally throughout the country.

Ayer's Cherry Pectoral.

COUGHS, COLDS, HOARSENESS, CROUP, WHOOPING COUGH, ASTHMA, INFLUENZA, CONSUMPTION.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and extent of virtues which excites the astonishment of the most enlightened of its friends. Nothing but its intrinsic value, and its unrivalled power to cure, could originate and maintain the reputation it enjoys. Many inferior remedies flourish upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefactions the most valuable, and produced cures literally numberless. In the affections of the throat and lungs, it has performed wonders, and for manifestations of scrofulous disease in the blood, it is the most effectual remedy that has ever been known. Indeed, so numerous are the cases of dangerous and apparently desperate diseases of the throat and lungs, which are daily occurring, that every family should have it for protection. Colds, settling on the lungs, are the origin of more than half the diseases of this climate. One dose will relieve any recent cold, and a few doses will cure it. Its early use will prevent the development of the seeds of consumption, which lie in the system of many persons, ready to start into life the moment they are warmed by the first cold or settling of the lungs. Avoid all the usual modes of treatment, and the inevitable result, by checking the cough, and thus relieving the lungs, and you will save the patient. Nothing but the counteracting influence of this remedy can cope with the disease when it has fastened upon the vitals. Neglect of the simple means which will control it in its early stages, and the use of pernicious drugs, which only aggravate the symptoms, are the causes of the greater part of the mortality which carries off its victims. Keep the bowels open, the liver active, and the blood pure, by the occasional use of such gentle purgatives as will not irritate or debilitate the system, and the Cherry Pectoral will do the rest.

Prepared by J. C. AYER, M. D.,
Practical and Analytical Chemist, Lowell, Mass.

For sale by RANKIN, HOWARD & CO., and sold by the Druggists generally throughout the country.

THE MUSIC BOOK THAT ALL ARE BUYING!!

THE SINGING BIRD, or Temperance Music Reader, by W. B. BRADBURY, 320 10 cents each, or $3.60 per dozen. From the Chicago, Democratic Press, of Dec. 5th.

"This is a gay and cheerful little book, full of beautiful and most delightful music. Some of our musical friends have already purchased it, and we have heard it sung. It is the prettiest thing of the kind we have seen."

The author says that the "Singing Bird" is intended as exclusively a temperance publication, but that it is adapted to the duties of social music as a whole, as well as a pastime, in which capacity it has been extensively used and found to be. It may but be accomplished his object. Mr. Bradbury is already highly and deservedly popular as a writer of music, and this little work will, if possible, add to his reputation.

Published by MASON BROTHERS,
No. 23 Park Row, New York.

It is admirably adapted to the purpose for which it is designed.

From the Chicago Tribune of Dec. 9th.

The Singing Bird, by Bradbury, was the freshest in an attractive way from it the 3 No of the first issues, and is filled with pretty music. Price 10 cents.

From Mr. N. Dyer an Accompanied Teacher of Music.

Messrs. S. C. Griggs & Co.—I have examined the Singing Bird, by Prof. Bradbury, and am free to say that I consider it the best work of the kind that has been published in the West.

Chicago, Dec. 9th, 1852.

From Mr. G. F. Abel, Chorister of the 1st Presbyterian Church, Chicago.

Messrs. S. C. Griggs & Co.—I have examined with much pleasure the Singing Bird, published by you. From a careful perusal of the work, I am satisfied that it is the best work of the kind that has ever been published. The peculiar arrangement of the Exercises, Rudiments, Elementary Lessons, &c., is the result of many years of practical experience in teaching, and is admirably adapted to many years of practical experience in teaching, and is admirably adapted to many years.

Chicago, Dec. 9th, 1852.

From Mr. S. Carter, Chorister of the 2d Presbyterian Church, Chicago.

Messrs. S. C. Griggs & Co.—The "Singing Bird" or Prof. Bradbury, is the neatest and most attractive work of the kind with which I am acquainted. It contains a full and complete course of instruction in the rudiments of music, with some easy and choice selections for singing. For myself, I am free to say that I consider it the progressive Singing Book of the day.

Chicago, Dec. 9th, 1852.
